EDUCATION

Gargi Memorial Institute Of Technology

B.Tech in Computer Science and Engineering, CGPA: 7.96/10

Kolkata, India

2021 – 2025

RELEVANT COURSEWORK

- Data Structures and Algorithms
- Database Management System
- Operating System
- Object Oriented Programming in C++
- Software Engineering / SDLC
- Computer Networks

EXPERIENCE

Full Stack Python Developer

July 2025 – Present

Ebluesys Pvt. Ltd.

Kolkata, India

- Developing the web version of **Pourohisab**, a financial accounting system used by Urban Local Bodies (ULBs) under the West Bengal Government.
- Built end-to-end accounting modules including **voucher management**, cheque workflows, and automated financial entry logic.
- Designed and integrated REST APIs using **Django REST Framework (DRF)** with optimized database queries for improved performance.
- Implemented **role-based dynamic permission system** to securely manage user access across multiple modules.
- Developed **dynamic dashboards and financial reports** (cash book, ledger, trial balance, voucher reports) with accurate calculations and export features.
- Built responsive web interfaces using **HTML, CSS, JavaScript, and Django templates**, including keyboard shortcut navigation for faster workflows.
- Performed seamless **frontend-backend API integration** and ensured reliable communication with SQL Server database systems.
- Collaborated in merging multiple API layers into a **scalable unified architecture**, improving maintainability and system performance.

TECHNICAL SKILLS

Languages: Python(proficient), C++, SQL
Bootstrap, Chart.js, Axios, SweetAlert, CDN integration)

Web Technologies: HTML, CSS, JavaScript (jQuery,

Database Management: MySQL, Oracle SQL, SQL Server

Frameworks: Bootstrap, Django

Developer Tools: VS Code, Git, GitHub, PyCharm

Soft Skill: Leadership, Teamwork, Communication

PERSONAL PROJECTS

Smart Banking Management System | *Python (Terminal-Based)*

- Developed a terminal-based **banking application** simulating key operations: user registration, login, balance inquiry, withdrawals, deposits, transfers, and cheque management.
- Implemented **Object-Oriented Programming** for modular design and used **file handling** for secure data persistence.

Tourism Website | *HTML, CSS*

- Built a modern, responsive, and visually appealing tourism website with destination descriptions, image galleries, and smooth navigation.
- Live: **Tourism Website** [↗](#)

Cricket Theme Game – “Guess the Bat, Ball, or Out” | *HTML, CSS, JavaScript*

- Developed an interactive cricket-themed guessing game with score tracking, animations, and responsive gameplay.
- Live: **Cricket Game** [↗](#)

ACHIEVEMENTS

Manage a cricket-related Facebook page with **3,000+ followers**, creating match predictions and engaging sports content.

HOBBIES

Playing cricket and football and watching football leagues.
Playing online games in my free time.
Listening to stories and audio content.
Watching YouTube documentaries and knowledge-based content.
